

## NON-PROVISIONAL PATENT FILING PACKAGE

Title: Timing-Aware, Trust-Weighted Opportunity Matching System

This package includes formal claims and drawing placeholders.

Claims Section:

- Independent Claim 1: Timing-aware suppression of opportunity matches.
- Dependent Claim 2: Explainability enforced prior to surfacing.
- Dependent Claim 3: Trust-weighted visibility without public reputation.
- Independent Claim 4: Rate-limited matching architecture.
- Dependent Claim 5: Non-extractive hiring constraints.
